VILLAS

The Villa

Located at a pristine Mykonos location overlooking the shimmering Aegean Sea, Villa Lemnos is an elegant standalone vacation home comprised of three separate luxurious villas for maximum privacy for all of its 16 guests. Borrowing elements from traditional Cycladic architecture, with distinct marble and wood details, it features a compelling design that brings together the classic with the modern, creating an awe-inspiring and cozy sensation.

Main Villa

A spacious sitting room and an equally lavish and comfy dining area welcome you to the main building. A fully-equipped kitchen has everything you will need for dreamy meals that you or your private chef will prepare. As for sleeping arrangements, two double and one twin en-suite bedrooms, each with access to a private terrace, can accommodate up to 5 guests. Here, you will also find an additional staff area of 2 single bedrooms, a kitchenette, a shared bathroom, and a utility room.

Guest Villa

This building lacks neither the luxury nor the conveniences of the main villa or the studio apartment and comes with two double bedrooms and one twin bedroom, each with en-suite bathrooms and, of course, their own space on the terrace for those personal moments.

Studio Apartment

A total of two bedrooms (one double and one single) with a shared bathroom, as well as a fully-functional kitchenette and a plentiful sitting room make this studio apartment ideal for families with a small kid as it allows them to isolate from the rest of the group and ensure some peace and quiet for the little one.

Villa Lemnos as a whole enjoys wonderful alfresco lounge spaces with plush seating, an inviting BBQ area featuring a pizza oven, and a heated infinity pool offering stupendous seascapes.
